

**Title:** EDUCATion for sustainable development: Environmentally-friendly technologies, materials and socio-economic activities  
CATE]

[EDU

**Project type:** LLP / Erasmus - IP

**Ref. no.:** First year 11-EIP-RO PITESTI01

Second year 12-EIP-RO PITESTI01

**Promoter/coordinator:** University of Pitești

**Duration:** 3 years

**Actual stage:** Finalised

Total value of the Contract: First year 33.150 Euros

Second year 31.740 Euro

**Summary:**

### Goal and Objectives:

The project aims to improve and complete the academic professional training of students graduating from a large variety of specialisations: Environmental Engineering, Ecology, International Business Management, Production and development, Building and construction, Transportation, Electrical and Electronic Engineering.

More specifically, the project targets at supporting the bachelor students (1st cycle) in acquiring the core technical skills and the intellectual competences necessary to operate, with a high degree of autonomy and responsibility, in the current and future globalized labour market, a market which is facing the challenges of environment protection, depleted energetic resources and sustainable development. These skills and competences are required for properly managing the potential situations and contexts afferent to their future profession.

Target groups: students and teaching staff

### Main activities:

- a series of 6 teaching and training modules ((1) The future of transportation in a sustainable economy; (2) Education as sustainable development factor; (3) Energy Saving Measures in Dwelling Technology; (4) Doing business for sustainable development; (5) Environmentally-friendly materials and technologies; (6) Designing and managing EU projects for sustainable development) which includes lectures and practical activities, debates, analyses and discussions.

- social and cultural activities (trips, visit to the Palace of Parliament in Bucharest).
- reporting upon the project.
- dissemination activities (posting info about the IP on the partners' website, press articles in local/regional mass media, designing and distributing brochures about the IP, displaying posters, organizing short information seminars with available info about the IP addressed to students and community that cannot attend the courses).

### Outcomes:

- the IP study Program itself;
- the educational plan;
- teaching materials (on-line, printed and on CD);
- overall project report;
- dissemination activities and products (special website of the IP, brochure, poster, press articles, short information seminars). The project website will be developed starting with the first year of the project's implementation.

### **Partnership:**

1. University of Pitești, RO - coordinator
2. University of Ruse “Angel Kanchev”, BG
3. University of Nicosia, CY
4. Lillebaelt Academy of Professional Higher Education, DK
5. Polytechnic Institute of Bragança, PT
